Access to Quality Dental Care Is Declining

- **Long NHS wait times**
Patients across the UK face growing delays for routine and specialist dental treatment.
- **Fragmented care**
A lack of integrated dental and pharmaceutical services forces multiple appointments and referrals.
- **Regional shortages**
Rural areas such as Cornwall are particularly underserved by comprehensive dental providers.

A True One-Stop Dental Health Model

Tillie Street Dental Practice is a multi-specialist practice combining clinical dentistry with in-house pharmaceutical services, removing the friction between diagnosis, treatment and medication.

01

Multi-Specialist Clinical Team

Cosmetic, implant, orthodontic and general dentistry under one roof.

02
